Community version of the DOMinator for Firefox

UPDATE: DOMinatorPro 2012

Warning: this release is from 2010 and originates from Firefox 3.6 which is very old.

It's suggested to have a look at the trial version of [DOMinator Pro 2012](#)

Old Version

This project hosts the DOMinator for Firefox.

DOMinator is a Firefox based software for analysis and identification of DOM Cross Site Scripting issues using dynamic runtime tainting model on strings.

Warning: Do not use it on vanilla Firefox. It won't work! Use only on the DOMinator for Firefox version.

Before downloading anything be sure to read the [instructions](#)

The [DOMinator Project](#) is sponsored by:
